**FUND MANAGER'S REVIEW**

**Market Review**

The Dow Jones Industrial Average index rallied by 8.6% in July sparked by better than expected corporate results as well as improving new home sales. The rally in the US sparked an even greater climb in Asia with the MSCI Asia Pacific ex-Japan index increasing 12% during the period. The top performing regional markets were China, Philippines, and Indonesia.

Malaysia lagged regional markets with the FBM KLCI gaining 9.3%. Banking and construction stocks were in the limelight during the month. New construction contracts and the sale of SPLASH helped to generate interest in the construction and building material sector. The launch of the RM10bn Amanah Saham 1Malaysia Fund is expected to spur some market activity once the money is deployed to equities.

**Manager's Comments**

For the month of July, the Fund underperformed its benchmark. The underperformance was due to the Fund's relatively low equity weighting. While we believe that 2Q09 could mark the bottom of the market, we believe that the recent market upturn has been too sharp and there is a possibility of a correction. We would look to increase our equity exposure on pullbacks.
