FUND MANAGER'S REVIEW

Market Review

Better than expected economic data released added further pressure to rate hike speculations. 4Q09 GDP grew by 4.50% year on year whilst inflation stayed benign at 1.30% year on year for the Jan10 CPI reading. Market participants were seen pricing in circa 25 bps increase in interest rates to benchmark MGS yields. The benchmark 3-year MGS ended the month unchanged at 3.34%, the 5-year MGS inched up 6 bps to 3.82% and the 10-year MGS closed 1 bps lower at 4.26%.

Trading volume was thin in the PDS market due to the number of public holidays during the month. Weekly trading volume for the month averaged a mediocre RM900 million. Investor interests were mainly focused on the AAA-rated names such as Cagamas Bhd, Rantau Abang Capital and Sime Darby Bhd. AA rated names which saw steady interest were Malakoff Corporation Bhd, Kapar Energy Ventures and OCBC Bank Bhd.

Comments

We remain overweight on corporate bonds that have priced in the potential interest rate hike as we expect further credit spread tightening. In terms of duration, we prefer to be defensive in the environment of rising interest rates and position an underweight in portfolio duration.
