FUND MANAGER'S REVIEW

Market Review

Equity

It was a month of recovery in June for Malaysia as the KLCI rebounded strongly and clawed its way back to near its year highs. The release of the 10th Malaysia Plan on June 10 and the higher-than-expected development expenditure, particularly for construction jobs, helped lift market sentiment despite distraction from the World Cup competition.

Fixed Income

For the month June, the MGS yield curve shifted lower by 4 to 10 bps led by muted inflation as well as strong demand for longer tenured MGS bonds. In tandem, the AAA curve shifted down by 2-7 bps.

Notable issuances for the month were as follows :-

- National Bank of Abu Dhabi (NBAD) raised RM500mil in 5 year sukuk, rated AAA
- Maju Expressways raised RM550mil, tenures ranging 5-15years, rated AA-
- Ara Bintang raised RM330million in 5 year MTNS, rated AAA

Comments

Equity

June saw a slight rebound in confidence although the macro rumblings have not ceased. Neither have they grown or morphed into something more dangerous. However, the summer lull was nervous, as double-dipping fears and China slowdown did not add to confidence.

Fixed Income

Bullish on corporate bonds as lack of supply provides impetus for narrowing credit spreads. Moreover, credit spreads are still attractive with 3, 5 and 10 year AAA credit spreads at 70, 85 and 120 bps above MGS. We believe lengthening duration will pay off in this segment. We recommend a core weightage in corporate bonds, while increasing allocation to MGS for selective trading play. We would also position for neutral to overweight portfolio duration.
