FUND MANAGER'S REVIEW

Market Review

Equity

The Malaysian market suffered its first monthly decline after five consecutive months of positive performance. For the month, the FBM KLCI lost 21 points or 1.4% to close at 1,485 points. The broader index FBM EMAS fell 1.0% to 10,073 points. Smaller caps underperformed as the FBM Small Caps lost 1.5% to 12,004 points. Among regional bourses, Japan and Thailand were the best performing markets whilst China and Philippines were laggard.

There were three M&A proposals announced in November. UEM Land Holdings Bhd launched an RM1.4 billion conditional takeover offer for Sunrise Bhd. This was followed by the proposed merger between Malaysian Resources Corp Bhd (MRCB) and IJM Land Bhd. Meanwhile, there was also a proposal to ultimately merge Sunway Holdings Bhd and Sunway City Bhd - both are controlled by Tan Sri Jeffrey Cheah. Following the listing of Malaysia Marine and Heavy Engineering Holdings Bhd (MHB), Petronas listed Petronas Chemical Group Bhd4 in November.

Fixed Income

Local government bonds generally trended higher this month, with the 5-year MGS benchmark rallying the most. The overall bullish tone was mainly driven by strong buying interest from offshore investors as foreign capital inflows continue to shift towards Asia, as the search for higher yielding assets extends further. On the economic front, GDP growth for 3Q2010 slowed down to 5.3% yoy from 8.9% yoy in 2Q2010, weighed down by slower export growth. Export continued to ease further to 6.9% yoy for the month of September 2010 while industrial output rose moderately to 5.6% yoy. Inflation was up slightly to 2.0% in October 2010 from 1.8% in September 2010, mainly due to an increase in food and transport prices. There was healthy demand for the new issuance of RM3.0 billion 10-years GII in the last week of the month, attracting a bid-to-cover ratio of 2.5 times and drawing an average yield of 4.0%. The 3-,5-,7- and 10-year benchmark yields eased by 4 to 15 bps to 3.13%, 3.28%, 3.62% and 3.83% respectively while the 20-year benchmark yield rose by 1.9bps to 4.15%.

Bank Negara (BNM) decided to maintain the Overnight Policy Rate (OPR) at 2.75%. In its Monetary Policy Statement, BNM reiterated that the current OPR is appropriate and consistent with their latest assessment of economic growth and inflation prospects. BNM expect the overall growth will continue to be supported by robust domestic economic activity while inflation is projected to continue to remain moderate.
