FUND MANAGER'S REVIEW

Market Review

Equity

For the month, the FBM KLCI rose 21 points or 1.3% to close at 1,579 points. The broader index FBM EMAS gained 1.4% to 10,842 points. Smaller caps once again underperformed as the FBM Small Cap fell 0.5% to 12,725 points as investors preferred the safer big cap names. Among the major regional bourses, Hong Kong and Taiwan markets suffered the worst declines whilst India and Indonesia index posted the biggest gains.

In the beginning of the month, Maybank and CIMB Group Holdings received separate approvals from Bank Negara Malaysia (BNM) to begin negotiations with the shareholders of RHB Capital Bhd on a potential merger. However three weeks later, both decided to end the takeover negotiations separately after failing to reach any agreement with RHB Capital Bhd. Meanwhile Khazanah and Temasek announced two proposed developments on a Joint Venture basis in Iskandar, Johor; namely an Urban Wellness development in Medini North and the Resort Wellness in Medini Central Pulau Indah. Prime Minister has unveiled 15 more investments, totalling MYR63.9 billion, under the MYR1.4 trillion Economic Transformation Programme (ETP). To date, 87 initiatives worth MYR170.3 billion have been unveiled since October 2010.

Fixed Income

Local government bonds ended higher for the month, with the 20-year Malaysian Government Securities (MGS) benchmark rallying the most. This came about as June saw foreign holdings of Ringgit-denominated MGS surge to a new high of RM87.8 billion, approximately 32.7% of the total outstanding MGS. On the economic front, exports grew at 11.1% year-on-year (yoy) for the month of April 2011, the highest growth in nine months. However, industrial output contracted 2.2% yoy, the first contraction in 17 months whilst inflation continued to climb higher to 3.3% in May 2011. There was healthy demand for the reopening of the RM4.0 billion 10-year MGS, attracting a bid-to-cover ratio of 2.3 times at an average yield of 3.97%. The demand for the new issuance of RM2.0 billion 20-year MGS was also favourable, garnering a bid-to-cover ratio of 2.5 times at an average yield of 4.23%. The 3-, 5-, 7-, 10- and 20-year benchmark yields declined by 6 to 21 basis points to 3.23%, 3.50%, 3.73%, 3.93% and 4.24% respectively.

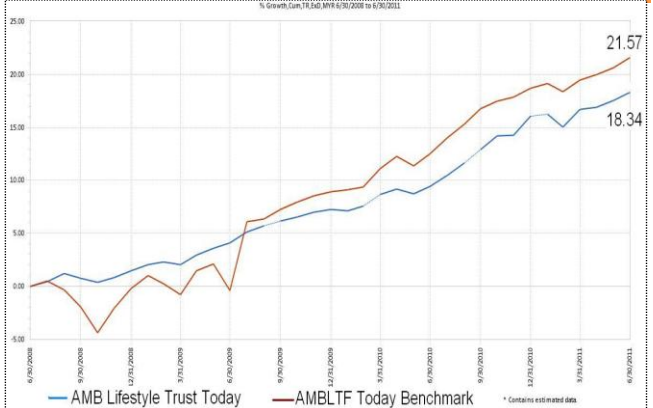

Meanwhile, the Government of Malaysia recently sold USD2.0 billion of Wakala Global Sukuk comprising of 5- and 10-year maturities. Coupons for the 5- and 10-year sukuk were priced at 2.991% and 4.646% respectively. The bond sale received strong interest from various investors from the Middle East, Malaysia, Asia, Europe and the US. The sukuk was priced at the higher end of the initial pricing guidance. Proceeds will be used to refinance the Government's existing USD1.75 billion conventional bond maturing in July 2011.

Manager's Comments

For the month of June, the Fund underperformed its benchmark slightly due to its stock selection. We would look to increase our equity exposure on pullbacks.
