**FUND MANAGER'S REVIEW**

**Market Review**

For the month, the FBM KLCI gained 23 points or 1.52% to close at 1,558 points. The broader index FBM EMAS gained 1.09% to 10,691 points. Smaller caps underperformed as the FBM Small Cap fell 2.37% to 12,791 points. It was a weak month among the regional bourses with most countries showing declines with China and India among the worst performing markets whilst Malaysia and Indonesia bucked the trend by ending the month on a positive note due to positive domestic catalysts.

On the local corporate front, Tenaga Nasional Berhad received the required Cabinet approval to raise the electricity tariff by 7.20% effective 1 June. The Cabinet also approved a Fuel Cost Pass-Through Mechanism which is to be reviewed every 6 months with an initial gas price increase of 28.00%. Meanwhile, the equity market will see more listings as three notable initial public offerings have already issued draft prospectuses; Bumi Armada Berhad, MSM Malaysia Holdings Berhad and Eversendai Corp. Berhad. Finally, Bank Negara Malaysia raised the overnight policy rate (OPR) by 25 basis point to 3.00% and increased the statutory reserve requirement (SRR) by 1.00% to 3.00% in a pre-emptive move to address inflation concerns.

**Manager's Comments**

For the month of May, the Fund outperformed its benchmark mainly due to careful stock selection. We would maintain our equity weighting within the 75 - 85% region and would look to increase our equity exposure on pullbacks.
